

Innovative Hygiene Solutions

TC Enriched Foam

Manual Foam Skin Care System

- Superior Hand Wash Experience
- Low Cost-in-Use
- Improved Hygiene
- Up to 2,500 hand washes per refill

TC Enriched Foam - Manual Foam Skin Care System

The perfect balance between luxury and value, the TC Enriched Foam System delivers highly concentrated, foam hand cleansers in a controlled dispenser which provides up to 2,500 hand washes per refill - nearly 4x's more than traditional liquid soaps and up to 43% more than similar foam systems. Rich, luxurious foam cleansers delight customers while helping to reduce costly waste.

Superior User Experience

TC Enriched Foam contains special skin conditioning ingredients to soothe the skin for a refreshing cleansing experience. Concentrated formulas and high density foam produce a richer, thicker lather customers will appreciate.

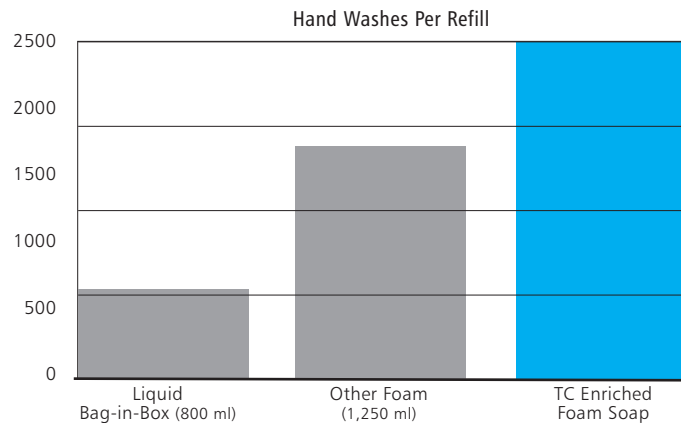

Low Cost-in-Use

More hand washes with fewer refills reduces labor and costs. A metered pump provides a controlled 0.4 ml dose of hand cleaner, eliminating over use and costly waste - the number one problem with soap systems. Every refill has a new pump, preventing mess, clogs and leaks.

Improved Hygiene

TC high quality, enriched foam encourages use to increase healthy hand hygiene. The antimicrobial Push Bar on dispensers utilizes a revolutionary technology, reducing the potential for cross-contamination. Hygienic, sealed refills keep soap fresh and clean, providing a more sanitary system.

TC Enriched Foam Performance:
