Spray Skin Care System

TC Spray Skin Care systems are the most cost-effective and environmentally responsible.

RICH HAND WASH EXPERIENCE

Revolutionary spray delivery provides thorough coverage. Highly concentrated soap lathers well and contains skin conditioning ingredients for a refreshing hand wash.

BEST COST-IN-USE

More hand washes with fewer refills reduces labor and costs. Highly controlled dispensing of concentrated soap eliminates overuse - the number one problem with soap systems. New pump with every refill eliminates mess, clogs and leaks keeping for maintenance free operation.

ENVIRONMENTALLY SUPERIOR SYSTEM

Green Seal certified and biodegradable formulas to help earn LEED credits. Controlled dispensing and box-less refills help reduce packaging waste up to 80%, while putting fewer chemicals into the water system.

IMPROVED HYGIENE

Disposable, sealed refills keeps soap fresh and free from contamination to encourage healthy hand washing.

TC Spray Dispensers

No.	Description	Product Dimensions	Case Weight	Case Pack	Case Cube
